ADVISORY & MANAGEMENT CONSULTING

Prior to investments, a thorough research on Country's Macro Economic scenario needs to be conducted. It is more relevant for FDIs looking to enter in Nepalese market.

Also, prior to commencing any Business or Diversifying into new avenues, it is always prudent to conduct a thorough Feasibility & Business Plan. This will always help in taking informed decision.

KFA's Product on 'Advisory & Management Consulting' to our targeted clients covers following components:

- Country Rating Analysis (On the Basis of World Bank's Doing Business Index and other Relevant Parameters);
- Thorough Macro Economic Analysis
- Identifying Sectorial Scope in the Country;
- Identifying and finalizing Local Business Firm/Partner for Investment.
- Full Analysis of the Regulatory Aspects about Investment;
- Conducting Comprehensive Feasibility Analysis, which will not only include secondary but also primary data, done by KFA's In-house Scholars/Researchers

KFA is contributing though Training, Education and Consulting Initiatives since July 2001 AD.

- Preparing Complete Business Plan
